The Director/Principal

Sub.: Improper filling of Bubbles & Boxes in the Answer Books by most of the students.

During ongoing examination, while scanning the OMR sheets of student area, it is observed that a majority of the students are not filling the bubbles at all as well as, in some cases, leaving the Boxes required to be filled in ink.

It seems that the invigilators are ignoring these errors of the students and are signing the OMR sheets by both the invigilators. They should be asked to be very particular in ensuring that the student section of OMR is filled completely. It is once again reiterated by the university that all such students' results may remain with held.

This is issued for a strict compliance.
