**Total periods 40 per week**

|        | 20 | 5 | 15 | 640 | 120 | 240 | 1000 | 32 |

**L – Lecture, T – Tutorial, P – Practical, ESE- End Semester Exam, CT- Class Test, TA – Teacher’s Assessment**

**Note:** Industrial Training of twelve weeks is mandatory for B.E. students. It is to be completed in two equal parts. The first part must have been completed in summer after IV sem. The second part to be completed during summer after VI sem. after which students have to submit a training report which will be evaluated by college teachers during B.E. VII sem.

**Note (1) –** 1/4" of total strength of students subject to minimum of twenty students is required to offer an elective in the college in a particular academic session.

**Note (2) –** Choice of elective course once made for an examination cannot be changed in future examinations.
UNIT 1  COMMERCIAL EXPLOSIVES  
Commercial Explosives and their properties, Bulk Explosive Systems, Selection of explosive. Transportation and Handling of explosives & related regulations.

UNIT 2  INITIATION SYSTEM & BLASTING ACCESSORIES  
Detonators of various types, Detonating cord, Safety fuse, Detonating relays, Non electric initiation and Blasting accessories

UNIT 3  SURFACE BLAST DESIGN  
Factors affecting blast design, Selection of various blast parameters Burden, Spacing, Stemming distance, Sub-grade drilling, Depth of hole, Bench height, Diameter of hole, Safe charge calculation, Deck Charging, Drilling patterns, Inclined hole drilling, Secondary blasting.

UNIT 4  UNDERGROUND BLAST DESIGN  
Various cut patterns, U/G blast design, Series & Parallel connection of detonators, Precautions during blasting

UNIT 5  ROCK BREAKAGE MECHANISM  
Breakage mechanism, rock fragmentation, Factors affecting rock fragmentation, Back break, over break, Fly rock, Ground Vibration , Noise, Control Blasting Techniques

References:

1. Explosives and Blasting Technology: G.K.Pradhan  
2. Surface Blast Design: C.J.Konya  
3. Rock Blasting: Sushil Bhandari  
4. Indian Explosive Act 1884  
5. Legislation in Indian Mines – A Critical Appraisal: Rakesh and Prasad
UNIT 1: MECHANICAL VENTILATION
Theory of mine fans, Types of mine fans, their characteristics & suitability, Selection of fans. Auxiliary and booster fans, series and parallel operation of fans, mine characteristic and selection of mine fans, fan drift and evasee, forcing and exhaust ventilation, reversal of ventilation, ventilation of headings.

UNIT 2: VENTILATION SURVEY
Object of ventilation survey, instruments for the measurement of pressure, velocity, and quantity of air.

UNIT 3: VENTILATION SYSTEMS AND PLANNING
Calculation of pressure and quantity requirements, network problems, Hardy-Cross method, ventilation planning and economic analysis, central and boundary ventilation, accessional and descensional ventilation, antitropical, homotropical ventilation.

UNIT 4: MINE DUST
Classification, physiological effects, measurement of dust concentration, dynamics of small particles, sampling of air borne dust, prevention and suppression of dust

UNIT 5: MINE ILLUMINATION
Types of portable lamps, their maintenance and examination, lamp room design and organization, Percentage and Accumulation test, light from mains, photometry and illumination survey, standards of illumination for underground and open cast workings.

Text Books:
1. Mine Env. By G.B. Mishra
2. Elements of Mining Tech. Vol.2 by D. J. Deshmukh
3. U/G Mine Env by Mcpherson

**UNIT 1. Arial ropeways**
Different types, their constructions & installation, operation & maintenance, design calculation, their layout including rope-tensioning arrangements.

**UNIT 2. Conveyors**
Different types of belt conveyors, their construction, installation, maintenance & design calculations.

**UNIT 3.**
Shaker conveyor, scraper chain conveyor and armored chain conveyor, their installation & construction maintenance. Safety Devices; Pit top and pit bottom arrangements.

**UNIT 4. Skip & Koepe Winding**
Skip types & Construction, pit top & pit bottom arrangements, advantages and disadvantages. Types of koepe Winder, Koepe wheel, floating platforms, two winders working in the same shaft, winding with side by side and up and down sheaves, advantages and disadvantages. Multi rope winding. Calculation of H.P.

**UNIT 5. HYDRULIC TRANSMISSIONS**
Fundamental of hydrostatic compression, hydraulic fluids, hydraulic pumps, motors, cylinders and accumulators, different types of valves, hydraulic coupling and torque converters, Application in mines, Advantages of hydraulic transmission.

**Text Books**
1. Elements of Mining Tech. Vol I & Vol III by D. J. Deshmukh
2. Mining Machinery By S. C. Walker
3. Coal Mining Practice By Statham
Principal Provisions of Mines & Minerals (Regulation & Development) Act
Coal Mines Conservation & Development Act.

Mineral Concession Rules, Indian Electricity Rules related to mining activity.

Byelaws & D.G.M.S. Circulars.
Mines Rescue Rules

Mine Accident, their classification, and causes & preventive measures, Cost of accident,
Preparation of Inquiry report.

Safety Campaign, Causes of major mining accidents those have occurred in India &
Suggested remedial measures.

   S. J. Kejeriwal
6) Mines Rescue Rules
7) Indian Electricity Rules
UNIT 1: Introduction, definition, scope and economic justification, main steps in ore dressing operations, general preliminary mineralogical investigations, comminution-crushing-principles of crushing, reduction jaw crushers, gyratory crushers, cone crushers, rolled crushers, gravity stamps their classifications and applications, grinding-principles of grinding units, application and classification of ball mills, rod mills, tube mills and pebble mills.

UNIT 2: SIZING
Object of sizing, scale of sizing, laboratory sizing, screening and classification, different type of screens, their mode of operations and application and limitation, classification-principles of classification, movement of solids through fluids, Stoke’s law, Reynold’s Number, different types of classifiers, hydraulic and pneumatic classifiers, sampling-importance of sampling and methods used.

UNIT 3: GRAVITY CONCENTRATION
Jigging, Flowing film concentrators like spirals and shaking tables, heavy media separation-theory, applications and limitations of methods.

UNIT 4: FLOATATION
Physico-chemical principles, function of various floatation reagents, important machines, their principles, and working, floatation of sulphide, oxide and non sulphide ores.

UNIT 5: ELECTROSTATIC AND MAGNETIC SEPARATION
Principle and operation and field of application, Pelletisation of low grade iron ore, Drying and dewatering - thickening, filtration and drying. Coal washing- Simplified flow sheets for beneficiation of coal and typical ores of copper, lead, zinc, iron and manganese ores with special reference to Indian deposits.

Text Books
1. Ore Dressing by Gaudin
2. Ore Dressing by B. A. Wills

UNIT 2: **Personnel Management** - Selection, training and development of human resources, Job evaluation, job analysis, incentive and motivation, Productivity, its concept and measurement.

UNIT 3: **Production Management** - Determination of norms and standards of operations by work study, work measurements, production planning, scheduling and control, Queing theory, short and long term planning, Quality control, introduction to MIS.

UNIT 4: **Industrial Psychology** - Its relation with other branches of knowledge, studies of physical factors and their effect on man, Industrial relations, Human relations, trade union movements in India

References:

1. Mine Management : V. N. Singh
2. Management & Administration : S.K.Gupta
3. Introduction to management : O.P. Khanna
UNIT 1
A Scenario of small scale mining in India, Definition of small mine, strength and weaknesses of small scale mining, Problems and difficulties of small scale mine owners, minerals- major & minor, royalty, dead rent, cess etc.

UNIT 2
Development of small scale mine, preparation of mine plan, extraction, development of benches, drilling & blasting practice in small scale mining, cutting techniques & transportation.

UNIT 3
Small scale mining of limestone, sandstone, gypsum, talc, soapstone etc., extraction techniques and procedure.

UNIT 4
Dimensional stone mining of granite, marble, black stone etc., extraction techniques and procedure.

UNIT 5
Environmental Impact of small scale mining, Environmental management plan, Env. Protection measures.

Reference Books :

2. Proceedings of the National Seminar on Small Scale Mining 2001 By MBM Engg. College, Jodhpur
List of Experiments to be performed:

1. Measurement of ground vibration by seismograph
2. Development of predictor equation from the recorded data
3. Measurement of VOD by VOD mate and its analysis
4. Study of various fragmentation assessment techniques
5. Handling of wipfrag software
6. Design of blast for coal face
7. Design of blast for underground metal mine
8. Design of blast for bench blasting
9. Study of various blasting tools
10. Study of bulk explosive systems
List of Experiments to be performed:

1. Study of installation of axial flow fan.
2. Study of installation of centrifugal flow fan.
3. Study of installation and positioning of booster fan.
4. Study of characteristic curve of different fans and their comparison.
5. Study of principal and working of vane anemometer.
7. Study of principal and working of pitot tube.
8. Study of central and boundary ventilation system.
9. Study of gravimetric dust sampler.
10. Study of thermal precipitator dust sampler.
List of Experiments to be performed:

1. Study of Jaw crusher
2. Study of roll crusher
3. Study of grinding mills
4. Study of Akin’s classifier
5. Study of shaking table
7. Study of spiral concentrator
8. Study of flotation cell
9. Study of thickeners
10. Study of washability curves
List of Experiments to be performed:

1. Study of Monocable aerial Ropeway.
2. Study of Bicable aerial Ropeway.
3. Study of Loop take-up and tensioning arrangement of a belt conveyor.
4. Study of pit top and pit bottom arrangements for a belt conveyor.
5. Study of Belt Conveyor
7. Study of Various Koepe Arrangements
8. Study of various types of skips.
9. Study of pit top and pit bottom arrangements for a Skip.
10. Study of hydraulic Couplings and Torque Converters.
Chhattisgarh Swami Vivekanand Technical University, Bhilai (C.G.)

Semester: VI Branch: Common to all Branches
Subject: Managerial Skills Code: 300625 (36)
Total Practical Periods: 28 Total Tut Periods: NIL
Total Marks in End Semester Exam: 40 Minimum number of class test to be conducted: 2

Unit-I
Managerial Communication Skills: Importance of Business Writing: writing business letters, memorandum, minutes, and reports- informal and formal, legal aspects of business communication, oral communication- presentation, conversation skills, negotiations, and listening skills, how to structure speech and presentation, body language.

Unit-II
Managerial skills: Leadership: Characteristics of leader, how to develop leadership; ethics and values of leadership, leaders who make difference, conduct of meetings, small group communications and Brain storming, Decision making, How to make right decision, Conflicts and cooperation, Dissatisfaction: Making them productive.

Unit-III
Proactive Manager: How to become the real you: The journey of self-discovery, the path of self-discovery, Assertiveness: A skill to develop, Hero or developer, Difference between manager and leader, Managerial skill check list, team development, How to teach and train, time management, Stress management, Self assessment.

Unit-IV
Attitudinal Change: Meaning of attitude through example, benefits of positive attitude, how to develop habit of positive thinking, what is fear? How to win it? How to win over failure? How to overcome criticism? How to become real you? How to Motivate?

Unit-V
Creativity – a managerial skill, Trying to get a grip on creativity.
